

Why Animation?

- Projected growth in the industry is due to an increased demand for animation and visual effects in video games, movies, and television.
- The video game industry alone employs more than 32,000 people in the U.S.
- Multimedia artists and animators work for both large and small production companies, however, a large percentage are self-employed.

Program Overview

The exciting and rapidly developing technologies, skills and applications taught within the Media Arts programs prepare students for careers in the film industry and in graphic and commercial arts, publishing, advertising, and communications. Three Media Arts tracks are available: Film Technology, Animation, and Graphic Design. Each track has two completion options:

1. Certificate of Employability
2. Associate of Applied Science

Multimedia artists and animators create animation and visual effects for television, movies, video games, and other forms of media. The Animation track prepares students for the rapidly developing field through the application of cutting edge software.

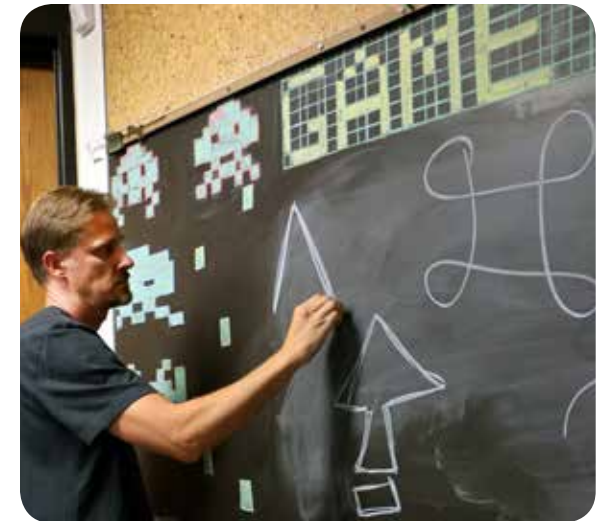

Completion Options

Students can complete a two-semester Certificate of Employability (20 credit hours) or a four-semester Associate of Applied Science degree (60-61 credit hours).

See the current catalog for the complete degree program. Course availability varies each semester.

**Associate of Applied Science – 60-61 cr. hours
(General Ed. requirements – 34 credit hours)
(Technical Ed. requirements – 27 credit hours)**
