The Associate of Science in S.T.E.M. Mathematics and Science provides the foundation needed to transfer into a Bachelor of Science degree program in Science, Technology, Engineering, and Math related fields at a four-year institution.

In order to increase chances of success in more advanced courses, it is **strongly recommended** that students complete the **Core 4** in the first two semesters. Choices in the *General Education Courses* can be added to reach semester requirements. All *Program Requirements* should be taken after the General Education courses have been completed.

- All students must take the University Skills Placement Text prior to beginning this program.
- Student must have an ENMU Campus System cumulative GPA of 2.00 in order to meet graduation requirements.
- All lectures and corresponding labs must be taken simultaneously.
- Student should submit a Graduation Application before the close of the semester preceding the expected completion date.
- Courses only offered once a year are identified at the end of the course title with the following designations: F = fall only; S = spring only. Course enrollment may determine whether or not a course will be offered.
