

Eastern New Mexico University-Roswell

ROSWELL.ENMU.EDU

ABOUT

ENMU-Roswell is a community-focused two-year university located in Roswell, NM. ENMU-Roswell offers 34 degree and certificate programs ranging from Nursing to Welding Technology. The University's mission is to empower a diverse community with academic and technical skills by supporting and preparing students for success in a rapidly changing world and by collaborating with business, industry, educational institutions, and the ENMU System. All programs and services relentlessly focus on exceeding expectations of students, customers, and partners. We strive to cultivate a nurturing, respectful and trusting environment of growth and development.

ENMU-Roswell seeks motivated students who enjoy small class sizes and a quality education that is affordably priced. We offer a full range of classes during the daytime, afternoon, online and evening. The faculty-student ratio is kept low, with small classes, allowing instructors to provide support and personal attention to students. ENMU-Roswell has the only FAA approved Aviation Maintenance Technology program in Southeast New Mexico, and operates a unique occupational training Special Services program for students with disabilities. Our Health Science Center is equipped with the latest in medical equipment for those pursuing degrees in health care fields. A wide range of tutoring and other student support services are also available. Compared to traditional four-year institutions, ENMU-Roswell is a superior value.
