Advisor Notes:

The University Studies AA degree program is a two-year transfer degree designed to be consistent with freshman and sophomore courses at four-year universities. This degree is offered both on-campus and online. Students must complete the 31 credit hours from the General Education Common Core Requirements, plus 29 credit hours of electives, which may be in a specific field or from various fields of study. Two electives (totaling no more than six credit hours) may be selected from vocational/ career technical courses (disciplines not listed in the New Mexico General Education Common Core). The degree requires a minimum of 60 credit hours, at least 20 of which must be in courses at the 200 (sophomore) level. Maximum transferability can be assured when students carefully coordinate their Associate of Arts degree course work with the general education requirements of the four-year institution to which they plan to transfer. ENMU-Roswell advises students preparing for specific careers in engineering, health sciences, or other profession-related fields to seek advising from the four-year institution of their choice to determine the appropriate transferability of electives.

- All students must take the University Skills Placement Text prior to beginning this program.
- Student must have an ENMU Campus System cumulative GPA of 2.00 in order to meet graduation requirements.
- All lectures and corresponding labs must be taken simultaneously.
- Student should submit a Graduation Application before the close of the semester preceding the expected completion date.

Courses only offered once a year are identified at the end of the course title with the following designations: Fa = fall only; Sp = spring only. Course enrollment may determine whether or not a course will be offered.
