

Why ENMU-Roswell?

Eastern New Mexico University-Roswell is a community university. We provide access to high quality, affordable education and life-long learning opportunities. We offer more than 70 certificate and associate degree programs and access to bachelor's and master's degrees in a wide range of career oriented programs. ENMU-Roswell students can take online classes, pursue advanced degrees, and receive personal attention from instructors, all at a superior value.

Why pay higher tuition rates when you can receive the same high-quality training at ENMU-Roswell? Whatever your ultimate goal—Airframe and Powerplant certification or Associate of Applied Science degree—ENMU-Roswell is the place to be.

What are your career goals?

- Exciting job?
- Good income and benefits?
- Advancement opportunities?

ENMU-Roswell can help you achieve your goals!

Program Overview

Aviation Maintenance Technology is a challenging career field with excellent employment opportunities. The AMT program runs for 18 consecutive months. Please consult AMT faculty, academic advisors, or the Technical Education Unit for semester start dates. Completing courses in the sequence and schedule offered is critical to successful completion of the program.

ENMU-Roswell Offers:

- The only FAA Part 147 Airframe and Powerplant school in Southeast New Mexico
- 18-month Certificate of Achievement Program
- Advanced Composite Repair Training
- Boeing Commercial Experience Training
- Reasonable Tuition
- Operational Aircraft
- Hands-On Training
- On-Campus Housing

Completion Options

Upon successful completion of the FAA 14CFR Part 147 program, students are issued a certificate acknowledging their eligibility for FAA testing. Students seeking an Associate of Applied Science (AAS) degree must also successfully complete additional general education courses. Applicants for an AAS degree who currently hold a FAA Airframe and Powerplant license may apply their A&P certification towards the AMT portion of the AAS degree.

Why Aviation Maintenance?

According to local employer demand and national workforce forecasts, the demand for trained aviation mechanics is still high. Many of our students already have employment offers by the time they complete their FAA testing.

At ENMU-Roswell, we can provide you with the skills and academic foundation needed to ensure your success in this exciting and demanding field. Our comprehensive lab facilities, small class size, and qualified faculty all contribute to our reputation for high-quality education.

The training you receive at ENMU-Roswell will prepare you to test for your FAA Airframe and Powerplant mechanic certification.
