Advisor's Notes/Recommendations:

- In order to improve student success probability and reduce unnecessary attrition, all students must take the University Skills Placement Test prior to entering the program. Developmental courses will be required as determined by the University Placement Test. Students must meet all assessment requirements of the program which may include pre and post TABE-A testing.

Program Requirements:

- Mandatory drug screening is required during the first week of the program and will be scheduled by the Division Health faculty. Students must pass the mandatory drug screening to remain in the program. Drug screening may be repeated based on requirements of clinical site contracts. Students must pass the mandatory drug screening and any mandatory screening to remain in the program. Students exhibiting signs of impaired clinical judgment related to suspected use of chemical substances, legal or otherwise, will be removed from the classroom, laboratory, or clinical setting immediately. At that time, the instructor will implement steps according to the Division of Health Policy for Student Suspected Impairment. Appeals can be made according to the process outlined in the Student Handbook.
