Advisor's Notes/Recommendations:

- In order to improve student success probability and reduce unnecessary attrition, all students must take the Placement Test prior to entering the program.

Program Requirements:

- Students must be enrolled in or have completed MDST 102, MDST 103, MDST 106, MDST 118, and EMS 101 in order to enroll in PBE 113 and 113L.
- Mandatory drug screening and background checks are required during the first week of the program and will be scheduled by the Division of Health faculty. Students must pass the mandatory drug screening and background checks to remain in the program. Students exhibiting signs of impaired clinical judgment related to suspected use of chemical substances, legal or otherwise, will be removed from the classroom, laboratory, or clinical setting immediately. At that time, the instructor will implement steps according to the Division of Health Policy for Student Suspected Impairment. Appeals can be made according to the process outlined in the Student Handbook.
- Students exhibiting signs of impaired clinical judgment related to suspected use of chemical substances, legal or otherwise, will be removed from the classroom, laboratory, or clinical setting immediately. At that time, the instructor will implement steps according to the Division of Health Policy for Student Suspected Impairment. Appeals can be made according to the process outlined in the Student Handbook.
- Students will be expected to meet health history, immunization, and background check requirements.
- A grade of C or better in each required course must be achieved to be permitted to complete the Phlebotomy Clinical Practicum and obtain a Certificate of Employability.
